# BED MODEL

Holds any size book open, book cannot slide because it is resting on a sliding, locking rail.  
Arms rotate 0-90 degrees and function to hold down the pages of reading material.

Rail slides up and down the length of table to accommodate any size book.

DESK can be tilted for easier reading

Legs are height adjustable

can be pulled in towards reader for easier viewing

Desk top pivots from flat to 80 degrees for reading at any angle

NOTE: Bed Model is identical to Floor Model except for length of legs
